6. Statement of Acceptance of Responsibility for NPP

Agrocaribe, S.A. hereby represented by Mr. Jose Roberto Montenegro, declares the acceptance of the assessment results conducted for the company in order to provide sufficient information for the NPP process. The company also declares for all means that the assessments were conducted in accordance to all RSPO New Planting Procedure and confirms its results.

The last time plan for new plantings is in August 2017, however due to delay in progress now move to April 2018 however subject to approval from RSPO.

7. Company and Person Responsible

Name of Grower: Agrocaribe S.A.
 Name of Person Responsible: Jose Roberto Montenegro
 Position: General Manager
 Signed: 
 Date: April 1/2017

8. Verification Statement by Certification Body (CB)

The Control Union Certifications (Malaysia) Sdn. Bhd. opted for a field audit and document audit for Agrocaribe and Agrofrancia.

The field visit was done in 20 -23 February 2017. There is meeting and interview conducted with local community's leaders and representatives to talk about FPIC process in relation with NPP Agrocaribe RSPO requirements. It was found that the company owns and rent a part of the new areas directly from the legal owner, whom have the legal user's rights over the land and the communities located within vicinities of the plantation have been consulted and agreed on the proposition of the new plantings.

During the verification process Control Union auditor was in contact with the accredited assessor and the company (Agrocaribe S.A.) to follow all aspects of this NPP report, verifying and reviewing the relevant documents.

The social and environmental assessments were detail, comprehensive and professionally carried out. The management plan has included the findings of the SEIA conducted by the external assessor as well as incorporating the HCV and SIA assessments findings. Status of HCV report conducted by Marisol Zumbadol in HCVRN is found "Satisfactory" (www.hcvnetwork.org/als/public-summaries).

Auditor also has check and verify the LUCA conducted by Ambiente y Desarrollo Consultores to determine changes to vegetation since November 2005, and show no hectares to be compensate.

As a commitment to an implementation period for promoting best practices in reporting net GHG emission to RSPO, AGROCARIBE, S.A. has completed the requirement of RSPO GHG Assessment Procedure for new planting by producing a separate report to comply with the NPP of RSPO 2015, version 4.3, which requires that new plantings are designed to minimize greenhouse gas emission, analysis of high carbon stock, identification and estimation of potential sources of emission and sinks of carbon associated with the new planting.

It is the opinion of the Control Union Certification and the auditor that AGROCARIBE, S.A. has complied with the RSPO New Planting Procedures enforced on 2015, version 4.3 and confirmed that the assessments and plans are comprehensive, professional and compliant with RSPO requirements.

9. Certification Body and Lead Auditor

Name of CB: Control Union Certifications (Malaysia) Sdn. Bhd.

Name: Oscar Lugo (RSPO Cert #2015-RSPOLA-LAT-01-08)

Position: Lead Auditor
